

“Bushland baddies, garden goodies” Weedbuster board game

How to Play

Each player rolls the dice and moves to a square according to the number thrown. You start in bushland, working your way through the catchment towards the sea, encountering facts about bushland baddies and garden goodies along the way. You must throw the exact number to finish your journey and become an official Weedbuster!

4. You talk to a weed expert who identifies local weed species.
FREE THROW

5. Bushland is restored after mining operations by planting non-invasive native species.

6. Weed seeds get stuck on cars and machinery.

7. While on a camping trip you accidentally spread weed seeds.
